Objective

Aspiring MERN Stack Developer passionate about building scalable and user-friendly web applications. Skilled in React.js, Node.js, Express.js, and MongoDB, with hands-on experience in responsive design and API integration. Eager to contribute to innovative projects and grow within a dynamic organization.

Skills

- **Languages:** HTML5, CSS3, JavaScript, Python, C
- **Frontend:** React.js, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Cursor, Postman
- **Soft Skills:** Teamwork, Problem Solving, Communication

Projects

Student Management System (MERN Stack) GitHub

- Developed a full-stack web application to automate student profiling.
- Built a responsive admin dashboard using React.js and Node.js APIs.
- Integrated MongoDB to securely store, update, and manage student data records.

Weather API Web App (React.js) Live Demo

- Built a dynamic weather application using weatherapi.com API.
- Implemented real-time weather data fetching with error handling.
- Designed a clean and responsive user interface.

React Portfolio Website (HTML, CSS, React.js) Live Demo

- Developed a responsive portfolio showcasing projects and technical skills.
- Built reusable React components for maintainability.
- Optimized the interface for desktop and mobile devices.
